Esri Featured at the National Association of Environmental Professionals 2021 Annual Meeting

In addition to a keynote speech from Esri's chief scientist, Dawn Wright, Esri experts presented a workshop on environmental policy mapping as well as [a session on geospatial tools for public involvement](#).

Watch the Speech

Why a City's Tree Canopy Says a Lot about Equity

The City of Austin investigated the relationship between socially vulnerable neighborhoods and areas with minimal numbers of trees. Backed by data, the city's new initiative is improving public health, reducing heat-island effects, and addressing climate change.
