Where: Footnote 23

Change: 23. System to System Communication

- a. Customer may use a basic service login to enable one-way, read-only, system-to-system communications from ArcGIS Enterprise to other third-party, enterprise business system(s) in the ~~customer's~~customer's organization. -Customer may use a [Viewer Named User Credential or Level-1 Named User Credential](#) as a basic service login until Esri implements an actual service login credential. -A specific [Viewer Named User Credential or Level-1 Named User Credential](#) used as a basic service login credential may only be used for system-to-system integration purposes and may not also be used by a Named User to access the system.
- b. Customer may use a standard service login to enable two-way, read-write, system-to-system communications between ArcGIS Enterprise and other third-party, enterprise business system(s) in the ~~customer's~~customer's organization. -Customer may use ~~a~~[an Editor \(or higher\) Named User Credential or Level-2 Named User Credential](#) as a standard service login until Esri implements an actual service login credential. -A specific [Editor \(or higher\) Named User Credential or Level-2 Named User Credential](#) used as a standard service login credential may only be used for system-to-system integration purposes and may not also be used by a Named User to access the system.

Why: Updating language to account for user types.

Where: Footnote 66

Change: 66. —Reserved.

66. Only Customers with an active ArcGIS Online subscription may store geocoded results generated by World Geocoding Service.

Why: New footnote that clarifies the permitted use for storing geocoded results generated by World Geocoding Service. This footnote used to be a part of footnote 68.

Where: Footnote 68

Change: 68. —Customer may not store the geocoded results generated by World Geocoding Service without an ArcGIS Online subscription. 68. Customer may use the data accessible through Infographics Service for display purposes only and may not save any data accessible through this service.

Why: The first sentence of footnote 68 was clarified and moved to create a new footnote 66.

Where: Footnote 75

Change: 75. Customer may enable third-party use of Value-Added Applications only by publicly sharing [the Value-Added Application\(s\)](#) using Sharing Tools. Customer may not use this subscription to power a Value-Added Application for its own [internal](#) business use unless Customer is an educational institution using the Value-Added Application for teaching purposes only, a qualified NGO/NPO organization, or a media or press organization.

Why: Clarifying language in this footnote 75.

Where: Footnote 84

Change: 84. Does not include a Deployment License.

Why: This is required for Esri CityEngine SDK and Procedural Runtime.

Where: Footnote 85

Change: 85. Software licenses and subscriptions included with ArcGIS Hub may only be used to support the community initiatives enabled by ArcGIS Hub. Customer may allow 3rd parties to be Named Users of ArcGIS Hub for the sole purpose of engaging in community activities. Customers may allow employees, agents, consultants, or contractors to be Named Users of ArcGIS Hub for the sole purpose of administering, configuring, maintaining, and supporting community initiatives through ArcGIS Hub. No other use of software licenses and subscriptions included with ArcGIS Hub is permitted.

Why: This is required for a new Product ArcGIS Hub.

Where: Footnote 86

Change: 86. Customer may use the software licenses and subscriptions included with ArcGIS Indoors solely to enable the capabilities of ArcGIS Indoors as defined in the ArcGIS Indoors Documentation. No other use of software licenses and subscriptions included with ArcGIS Indoors is permitted.

Why: This is required for a new Product ArcGIS Indoors.
