## Frequently Asked Questions (FAQ)

Q: Are all of the sample data provided on Data and Maps freely redistributable?

A: No. Much of the sample data are provided by multiple, third party data vendors under license to Esri for inclusion on Data and Maps specifically for use with Esri software.

Q: What does the last column “Redistribution” on the Redistribution Rights matrix with its “Yes” or “No” answers mean?

A: Each data vendor has its own data licensing policies and may grant varying redistribution rights to end users. Please consult the Redistribution Rights classifications below to determine the redistribution rights for a certain sample data file provided on Data and Maps. As used herein, “Geodata” shall mean any digital dataset consisting of geographic data coordinates and associated attributes.

“No” Internal Use Only. No redistribution rights are granted by the data vendor and the data is for the end user's own internal use only.

“Yes 1” Redistribution rights are granted by the data vendor for hard-copy renditions or static, electronic map images (e.g. .gif, .jpeg, etc.) that are plotted, printed, or publicly displayed with proper metadata and source/copyright attribution to the respective data vendor(s).

“Yes 2” Geodata are redistributable with a Value-Added Software Application developed by Esri Business Partners on a royalty-free basis with proper metadata and source/copyright attribution to the respective data vendor(s).

“Yes 3” Geodata are redistributable without a Value-Added Software Application (i.e., adding the sample data to an existing, [non]commercial dataset for redistribution) with proper metadata and source/copyright attribution to the respective data vendor(s).

“Yes 4” Public domain data from U.S. government are freely redistributable with proper metadata and source attribution.

Q: Are there any legal terms and conditions I need to be aware of under this license to use the sample data provided on Data and Maps?

A: Yes. The terms and conditions below apply to all the sample datasets provided on Data and Maps.

As an intended third party beneficiary to this Agreement, the Esri licensor(s) is (are) entitled to directly enforce, in its own name, the rights and obligations undertaken by the Licensee and to seek all legal and equitable remedies as are afforded to Esri.

Q: How should I cite the sample data provided on Data and Maps if I use it as proclaimed above?

A: In the event that the data vendor(s) has (have) granted the end user permission to redistribute the Geodata, please use proper proprietary or copyright attribution for the various data vendor(s), and provide the associated metadata file(s) with the Geodata. In compliance with FGDC metadata standards, Esri has attempted to practice proper metadata methodologies by providing any data source information, descriptions, and file names to assist in this effort.
