

Stewarding America's Forests with Science and Technology at Scale

SOCIETY OF AMERICAN FORESTERS
INNOVATION ZONE
SATURDAY, NOV 6 | 10-11 AM (ET)

esri
THE SCIENCE OF WHERE®

Esri, in cooperation with the USDA Forest Service Forest Inventory and Analysis (FIA) Program, presents a Society of American Foresters Innovation Zone. Esri and the FIA program have been working together for over 5 years to radically reorient analysis, reporting, and knowledge delivery built on the FIA database (FIADB). FIADB is the database of record for US forest data and statistics.

Introduction to the Innovation Zone

John Steffenson

Partnering for Digital Engagement
