

Esri News for AEC

Introducing Our First AEC Newsletter

Hi,

Welcome to the first issue of the *Esri News for AEC* newsletter. Here, you can find information and links to relevant webinars, articles and blogs, and more. Happy reading!

Please share this newsletter with your colleagues.

Esri User Conference

This year the Esri User Conference moved from San Diego to a virtual format. While we can't replicate the experience of being together in person, we will do our best to create an amazing event that will continue to move you and our community forward.

AEC Community

The Esri AEC Community is a forum that fosters networking among Esri users who are architecture, engineering, and construction (AEC) professionals with similar interests and objectives, where members are encouraged to share implementation strategies and product experience.

Community benefits include the following:

- Exchange and interact with peers whose GIS experiences are similar to yours.
- Have access to online tools to help members easily get in touch.
- Gain mutual aid and support.
- Find new partners for a project.
- Provide advice and recommendations.
- Benefit from many learning opportunities (product presentations, tips and tricks).

Esri AEC Community Kickoff Webinar

The recording of the AEC Community Kickoff webinar is available online so you can view it at your convenience.

Esri AEC Community Member Survey

To provide a way for the community members to introduce themselves and interact with each other in support of their professional goals, we created a member survey.

[Take the survey](#) →

AEC Community Webinar Series

The webinar series highlights subjects relevant to your organization's missions, workflows, and operations.

One easy registration will give you access to all of these webinars:

- June—Topic: Esri User Conference Preview
- July—Topic: Reality Capture for AEC
- August—Topic: Esri User Conference Highlights
- September—Topic: Indoor Mapping
- October—Topic: Training Resources for AEC
- November—Topic: Field Data Collection
- December—Topic: 2020 Wrap-Up

COVID-19 Webinars for AEC

Maintaining AEC Business Operations during the Pandemic:

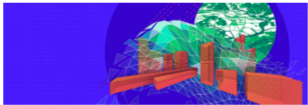

Esri has put together various resources to help engineering and environmental firms during the COVID-19 outbreak. [Watch on-demand](#) →

Bringing ArcGIS to Your Remote Workers:

Best practices on how ArcGIS solution can be architected to deliver data to remote-workers taking into account infrastructure limitations and licensing considerations. [Watch on-demand](#) →

Extending GIS to the Field:

How to enable your teams in the field to collect critical infrastructure, conduct site surveys, and improve operational awareness. [Watch on-demand](#) →

Geodesign Summit

Leaders, innovators, and other visionaries at the intersection of planning, design, and geospatial technology met at the 2020 Geodesign Summit to share best practices and network.

[Read More](#) →

Partner Highlights

Esri recognized select partners during the 2020 Esri Partner Conference in Palm Springs, California, for their outstanding application of GIS software. The award winners are companies from the global Esri Partner Network that have demonstrated innovative and creative ways to solve the most complex business problems by using Esri's geospatial analytics tools.
