

Esri News for AEC—June 2022

Hi,

Welcome to the June 2022 issue of the *Esri News for AEC* newsletter. Here you can find information and links to relevant webinars, articles, blogs, and more. Happy reading!

Feel free to share this newsletter with your colleagues. They can sign up [here](#).

Submit a GIS Success Story

Raise the profile of GIS both inside and outside your organization; showcase innovative approaches to overcoming challenges by using GIS; and above all, inspire others to replicate your success.

Esri User Conference—Explore the Agenda

The 2022 Esri User Conference (Esri UC) will be held in person July 11–15, 2022, in San Diego, California.

Navigate and plan your Esri UC experience. To help direct you through the conference, we created an ArcGIS StoryMaps story highlighting industry-focused sessions including user presentations, technical workshops, and special interest group (SIG) meetings. Also, there's a new event this year—join your peers; the Esri architecture, engineering, and construction (AEC) team; and partners and extend your professional network at the AEC Social.
