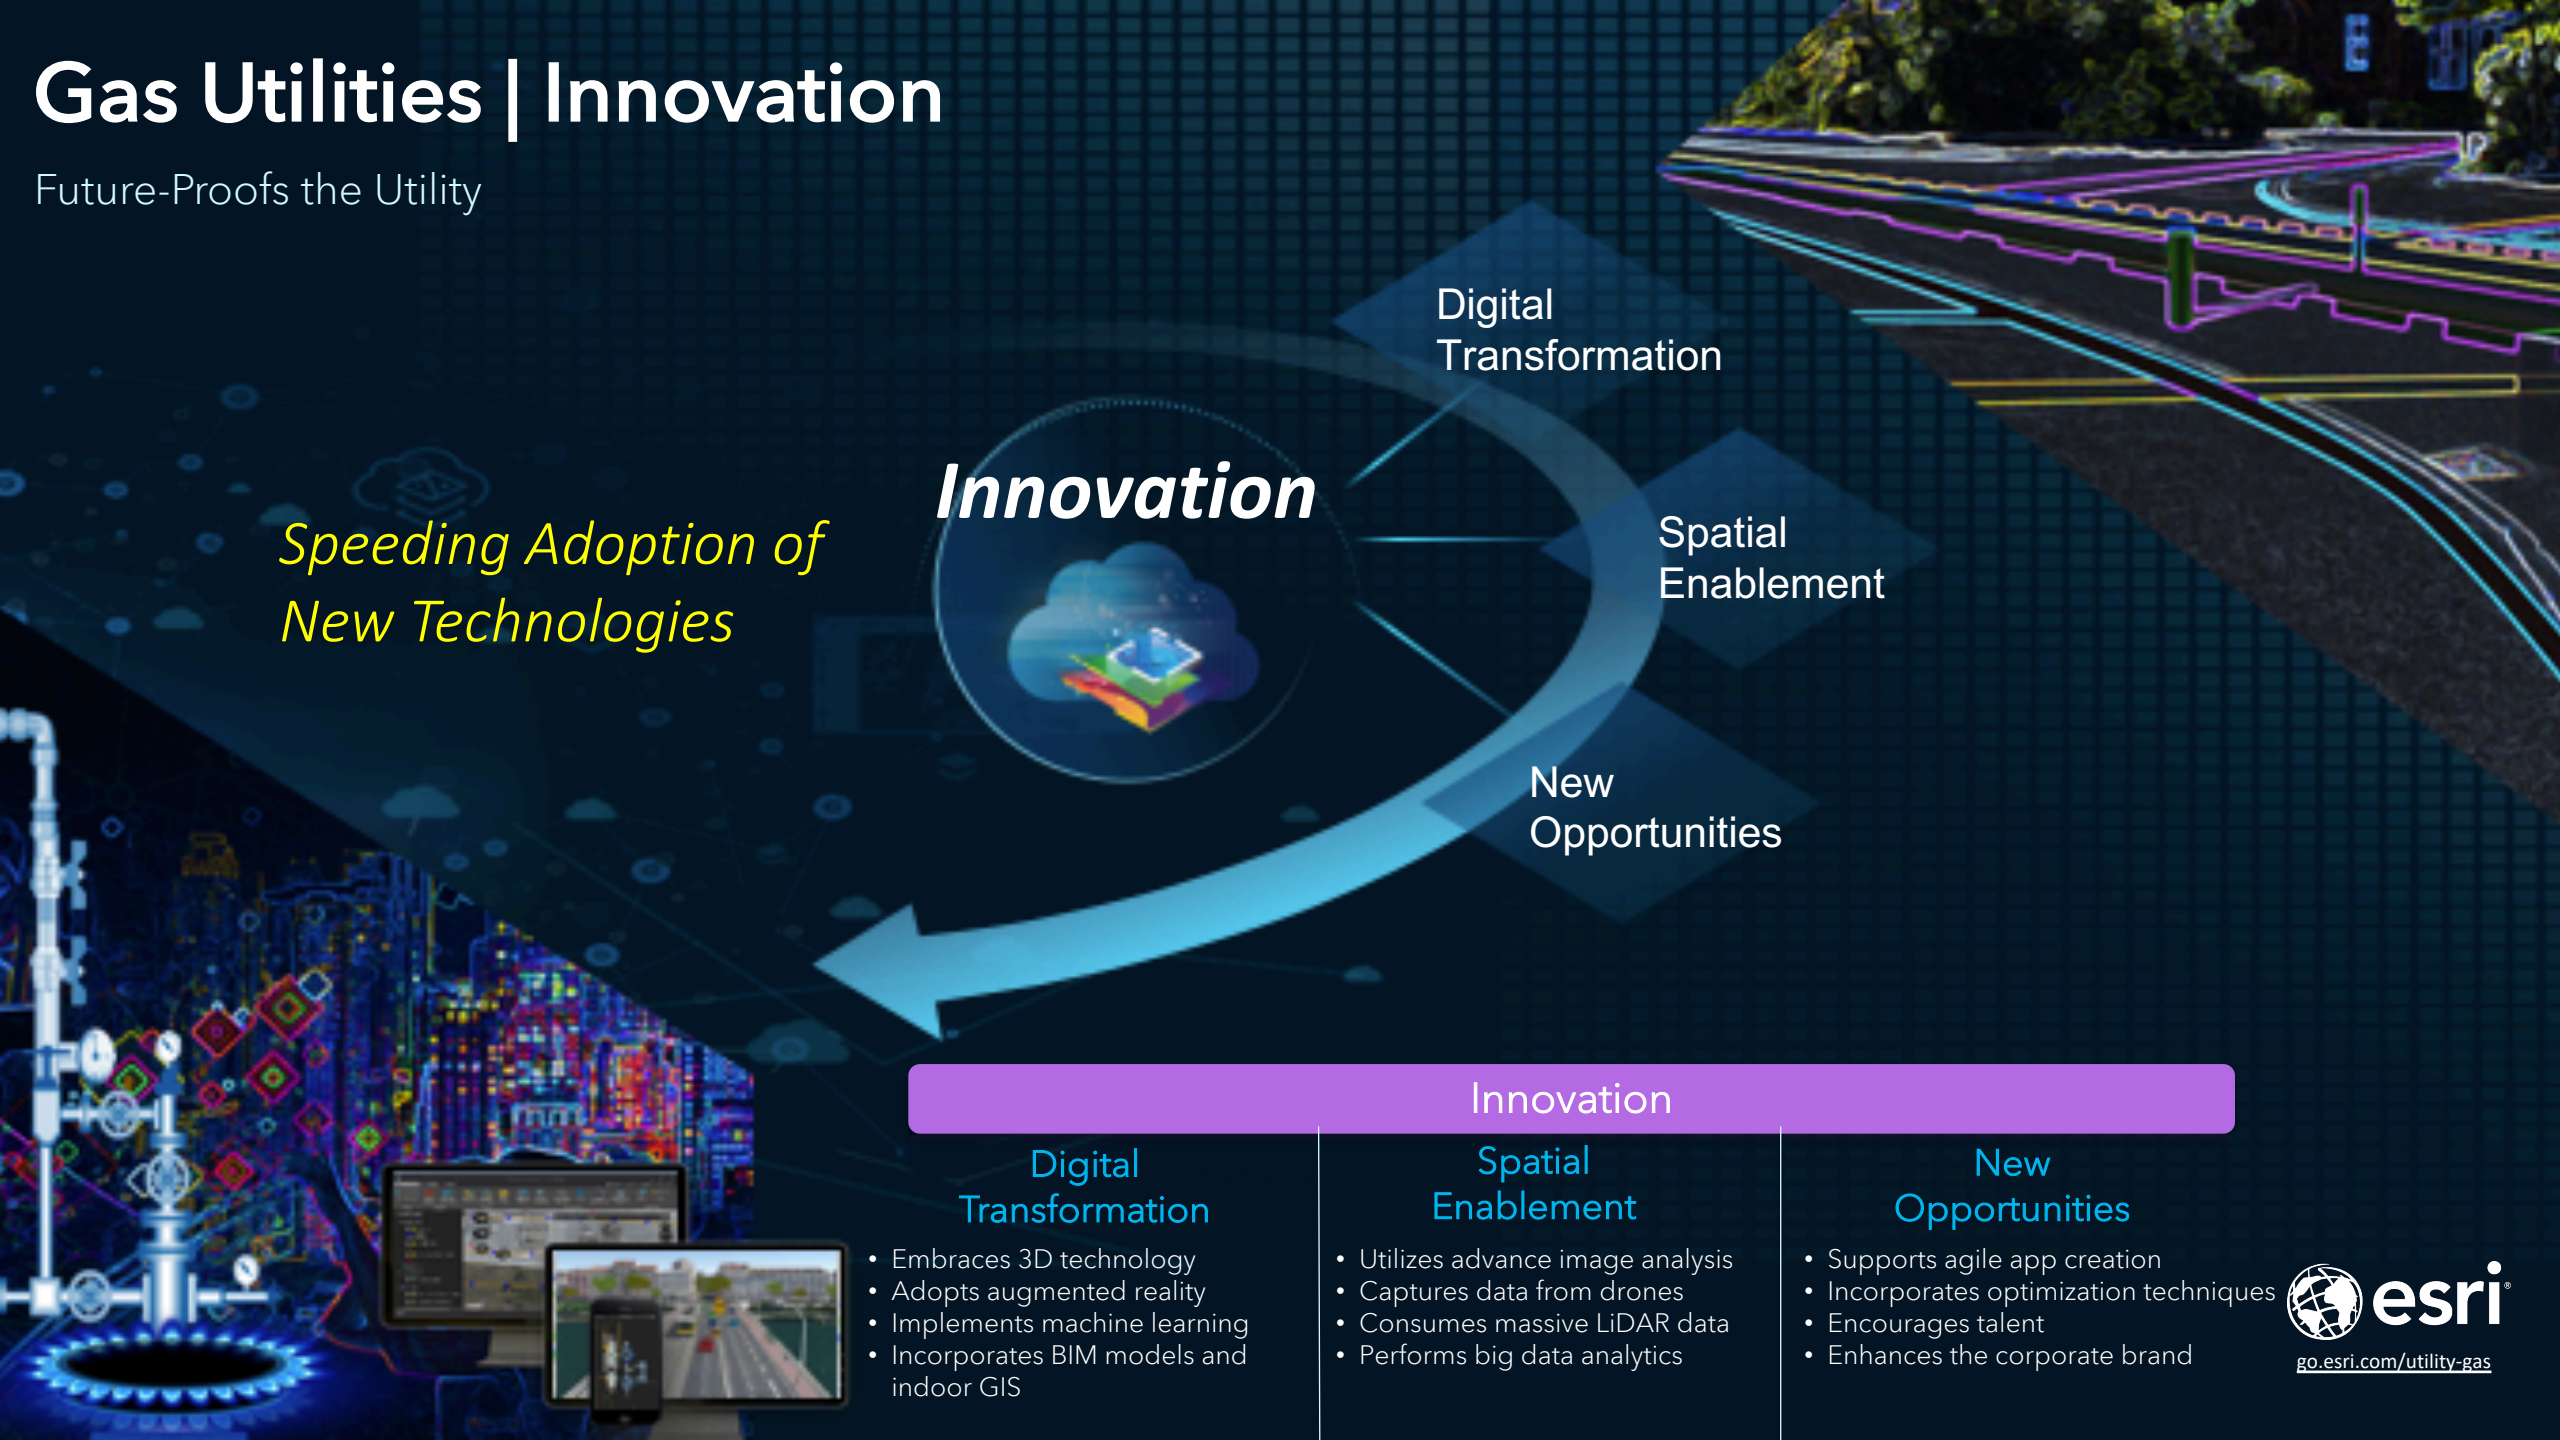
Gas Utilities | Innovation

Future-Proofs the Utility



Speeding Adoption of New Technologies

Innovation

Digital Transformation

- Embraces 3D technology
- Adopts augmented reality
- Implements machine learning
- Incorporates BIM models and indoor GIS

Spatial Enablement

- Utilizes advance image analysis
- Captures data from drones
- Consumes massive LiDAR data
- Performs big data analytics

New Opportunities

- Supports agile app creation
- Incorporates optimization techniques
- Encourages talent
- Enhances the corporate brand
