

Virtual Federal Partner Solution Fair and Partner Meeting

November 5, 2020

9:30 a.m. – 4:00 p.m. (Eastern)

ArcGIS Pro Add-ins and Analysis Track

3:15 p.m. – 4:00 p.m.

Please use the Zoom link <https://esri.zoom.us/j/99347962779> to dial-in to this track. Thank you.

3:15 p.m. - 3:30 p.m.

BAE Systems, Inc.

GXP integration with ESRI (a Unified View for DOD customers)

BAE SYSTEMS

Attendees will learn how existing integration between GXP software and ESRI enables a more robust GEOINT capability. This demonstration will illustrate how the COTS GXP product ecosystem connects and shares data with the COTS Portal for ArcGIS Enterprise.

3:30 p.m. - 3:45p.m.

Harris Geospatial Solutions, Inc.

*Easy-to-Use Workflows for SAR Analysis Using ENVI
SARscape Analytics for ArcGIS Pro*

This presentation will highlight workflows that non-SAR experts can use to analyze SAR data and generate products such as flood maps, time-series/change detections, and more in ArcGIS Pro. We will discuss how the analytics work and provide multiple use cases during the presentation.

3:45 p.m. - 4:00 p.m.

Hyssos Tech

STP for Pro – An Advanced Natural Language Planning Workstation

HYSSOS TECH

Sketch-Thru-Plan (STP) for Pro is a doctrine-based, natural input paradigm and technology, bypassing complex UIs by fusing speech and sketch. It is a Next-Gen user interface for Pro, leveraging natural language and sketch for fast and easy input, and other AI capabilities to help guide planning for warfighters and public safety teams.
