Critigen

Tuesday January 28 – 4:00pm – 4:20pm in the Esri Demo Theater (Booth #2047)

Presentation Title

EAM, ADMS, OMS, Design, Esri's Utility Network, mobility – what should we do first?

Description

Often there is a 'compelling event' such as a major EAM or ADMS initiative that serves as a catalyst for your organization to act. This discussion includes developing sequencing options and a business case for a Utility Network (UN) implementation. We'll also address business case development and mitigating integration risks with legacy systems when your Utility Network implementation is the compelling event.
