Esri – Utility of the Future

Wednesday January 29 – 10:30am – 10:50am in the Esri Demo Theater (Booth #2047)

Presentation Title

Utility of the Future

Description

See how an electric utility can understand and model their customers changing behavior as consumers and prosumers of energy. Learn about advanced modeling and analysis of distributed energy generation based on small-scale renewable energy sources and how it can help a utility operate in real-time.
