Dell PowerEdge Server with an ArcGIS® Enterprise Advanced Perpetual License

For US Customers Only

ArcGIS Enterprise is a full-featured mapping and analytics platform that includes a powerful GIS server plus dedicated web-based GIS infrastructure to organize and share your work.

- Features
- Resources
- Functionality Matrix

There are two server packages available, one with a four-core server and one with an eight-core server. If you need a dedicated database server for your Enterprise Geodatabase, a separate Microsoft SQL Database Server option is offered for consideration.

If you do not see the exact server configuration you are looking for, please call your local Esri regional office or Dean Garner at 909-793-2853, ext. 1-4441, for custom solutions.

Terms of Offer

Price is applicable for the United States only, excluding Guam, Puerto Rico, and the Virgin Islands. Price includes shipping and handling costs for the hardware only. Applicable sales tax is not included.

Both server packages (four cores and eight cores) come with an ArcGIS Enterprise Advanced Perpetual License.

This offer is only provided as a bundled hardware/software packaged system. Esri® software is not preinstalled on the server. See Esri Software Delivery below.

Order must be received by December 31, 2019.

Delivery

Esri Software
ArcGIS Enterprise is delivered via electronic download from Esri. Users will receive an e-mail communication with a token that directs them to their Esri Global Account. Customers that do not have an Esri Global Account must create one before they can use the token to receive access to downloading software from the MyEsri site. Existing customers that already have access to the MyEsri site will already have access to the ArcGIS Enterprise download. Esri software installation services are available, if needed, and are included on page 5 of this offer.

Hardware
Delivery is based on manufacturer availability. In most cases, once all proper paperwork is received as specified above, delivery will occur within 30 days.

<td><strong>The ArcGIS Enterprise Jumpstart – Basic</strong> services package provides up to 3 days of on-site installation and configuration support for an ArcGIS Enterprise implementation consisting of Portal for ArcGIS, one ArcGIS Server site and the ArcGIS Data Store on up to 4 customer provided physical servers by 1 Esri Consultant based on a basic implementation and design plan developed prior to the onsite visit. After installation is complete the Esri Consultant will configure ArcGIS Enterprise settings including supported user authentication systems, federate the ArcGIS Server site with Portal for ArcGIS, and designate it as the hosting server. When installation and configuration are complete the Esri Consultant will focus the remaining time on knowledge transfer of standard ArcGIS Enterprise technology topics such as: ArcGIS Enterprise Administration; Creating, updating, configuring and administering Geodatabases; Creating and Working with Services; Sharing Imagery and Caching; Disaster Recovery; Configuring and using your ArcGIS Organization. Customers will first be provided a jumpstart questionnaire to review user requirements, collect inputs for server sizing, and determine any network, security, or environmental changes to be addressed. Following receipt of the questionnaire the Esri Consultant will arrange a follow-up call or webcast to answer questions and review additional information pertinent to the implementation. Using the information gathered up to this point the Esri consultant will develop a basic implementation and design plan including a platform diagram with basic sizing estimates and an implementation agenda to direct the onsite activities. Topics outside the scope of the ArcGIS Enterprise Jumpstart include but are not limited to: Migration of Databases and Applications, Systems Integration, System Architecture Design, Security Review, High Availability, Performance Tuning, and Application Development. The price includes airfare, hotel, car rental, per diem, and other direct costs. On-site support will be provided at a mutually agreed upon customer location during one trip within the United States on consecutive business days during a single work week. By purchasing this service, the customer agrees to Services Packages Terms and Conditions (G-363-D Addendum) which shall take precedence over any other terms and the customer’s purchase order. If not attached, these Terms and Conditions can be viewed on the web at <a href="http://www.Esri.com/legal/service-agreements.html">http://www.Esri.com/legal/service-agreements.html</a>. This services package requires the customer to prepare for Esri’s visit. The preparation requirements are outlined at <a href="http://www.Esri.com/legal/service-agreements.html">http://www.Esri.com/legal/service-agreements.html</a> and all services will be provided in accordance with the requirements and assumptions provided therein. Scheduling will be based on resource availability.</td>
