

Dell EMC PowerEdge T340 Server with an ArcGIS® Enterprise Workgroup Standard Perpetual License

For US Customers Only

ArcGIS Enterprise is a full-featured mapping and analytics platform that includes a powerful GIS server plus dedicated web-based GIS infrastructure to organize and share your work.

- [Features](#)
- [Resources](#)
- [Functionality Matrix](#)

There are two server packages available, one with a dual-core server and one with a quad-core server. The ArcGIS Enterprise Workgroup edition is designed and limited to run on a single machine and includes a Microsoft SQL Server Express database. There is a limit of 10 simultaneous desktop connections to workgroup geodatabases. Workgroup geodatabases are only supported on Microsoft SQL Server Express and have a maximum size of 10 GB.

If you do not see the exact server configuration you are looking for, please call your local Esri regional office or Dean Garner at 909-793-2853, ext. 1-4441, for custom solutions.

Dell EMC PowerEdge T340 Server Features

Dual-Core Package

- One (1) Dual-Core Intel® Pentium G5420 3.8 GHz Processor, 4 MB Cache
- 16 GB of Memory
- 2 x 300 GB 15000 rpm Serial Attached SCSI (SAS) Disk Drives with RAID 1
- 4 x 900 GB 15000 rpm Serial Attached SCSI (SAS) Disk Drives with RAID 10
- PERC H730P RAID Controller, 2 GB NV Cache
- Internal SATA DVD+/-RW Drive
- On-Board Broadcom 5720 Dual Port 1Gb LOM Network Card
- 495 W Redundant Power Supply
- iDRAC9 Enterprise
- Windows® Server 2019 Standard Edition
- Three-Year ProSupport Mission Critical Four-Hour On-Site Service
- ProDeploy On-Site Installation of Operating System and Hardware

Quad-Core Package

- One (1) Quad-Core Intel Xeon® E3-2274G 4.0 GHz Processor, 8 MB Cache
- 16 GB of Memory
- 2 x 300 GB 15000 rpm Serial Attached SCSI (SAS) Disk Drives with RAID 1
- 4 x 900 GB 15000 rpm Serial Attached SCSI (SAS) Disk Drives with RAID 10
- PERC H730P RAID Controller, 2 GB NV Cache
- Internal SATA DVD+/-RW Drive
- On-Board Broadcom 5720 Dual Port 1Gb LOM Network Card
- 495 W Redundant Power Supply
- iDRAC9 Enterprise
- Windows Server 2019 Standard Edition
- Three-Year ProSupport Mission Critical Four-Hour On-Site Service
- ProDeploy On-Site Installation of Operating System and Hardware

Terms of Offer

Price is applicable for the United States only, excluding Guam, Puerto Rico, and the Virgin Islands. Price includes shipping and handling costs for the hardware only. Applicable sales tax is not included.

Both server packages (two cores and four cores) come with an ArcGIS Enterprise Workgroup Standard **Perpetual License**.

This offer is only provided as a bundled hardware/software packaged system. Esri® software is not preinstalled on the server. See Esri Software Delivery below.

Order must be received by November 30, 2020

Delivery

Esri Software

ArcGIS Enterprise is delivered via electronic download from Esri. Users will receive an e-mail communication with a token that directs them to their Esri Global Account. Customers that do not have an Esri Global Account must create one before they can use the token to receive access to downloading software from the MyEsri site. Existing customers that already have access to the MyEsri site will already have access to the ArcGIS Enterprise download. Esri software installation services are available, if needed, and are included on page 4 of this offer.

Hardware

Delivery is based on manufacturer availability. In most cases, once all proper paperwork is received as specified above, delivery will occur within 30 days.

Pricing

Item #	Dual-Core Server	Price
136637	Dell EMC PowerEdge T340 with ArcGIS Enterprise Workgroup Standard for One Server with Two Cores	\$13,000.00
Item #	Quad-Core Server	Price
120974	Dell EMC PowerEdge T340 with ArcGIS Enterprise Workgroup Standard for One Server with Four Cores	\$17,000.00

Optional Items

Item #	Description	Price
CRIN	Credit for Decline of Installation of Dell Hardware and Operating System at Time of Purchase	(-\$1,050.00)
CRMN	Credit for Downgrade of Three-Year Four-Hour ProSupport Mission Critical On-Site Response Service to ProSupport Next Business Day On-Site Response Service at Time of Purchase	(-\$600.00)
Data Appliance for ArcGIS	Data Appliance for ArcGIS provides terabytes of prerendered nationwide and worldwide data that includes street and transportation data, place-name data, administrative boundaries, raster imagery, topographic maps, shaded relief imagery, and elevation data. Training Options

Item #	Description	Price
163424	<i>ArcGIS Enterprise: Administration Workflows Training Course</i> Three Days, per Person, at Esri	\$2,100.00
149541	<i>ArcGIS 4: Sharing Content on the Web Training Course</i> , Three Days, per Person, at Esri	\$2,100.00

Installation Option

Item #	Description	Price
153636	<p>The ArcGIS Enterprise Jumpstart – Basic services package provides up to 3 days of on-site installation and configuration support for an ArcGIS Enterprise implementation consisting of Portal for ArcGIS, one ArcGIS Server site and the ArcGIS Data Store on up to 4 customer provided physical servers by 1 Esri Consultant based on a basic implementation and design plan developed prior to the onsite visit. After installation is complete the Esri Consultant will configure ArcGIS Enterprise settings including supported user authentication systems, federate the ArcGIS Server site with Portal for ArcGIS, and designate it as the hosting server. When installation and configuration are complete the Esri Consultant will focus the remaining time on knowledge transfer of standard ArcGIS Enterprise technology topics such as: ArcGIS Enterprise Administration; Creating, updating, configuring and administering Geodatabases; Creating and Working with Services; Sharing Imagery and Caching; Disaster Recovery; Configuring and using your ArcGIS Organization. Customers will first be provided a jumpstart questionnaire to review user requirements, collect inputs for server sizing, and determine any network, security, or environmental changes to be addressed. Following receipt of the questionnaire the Esri Consultant will arrange a follow-up call or webcast to answer questions and review additional information pertinent to the implementation. Using the information gathered up to this point the Esri consultant will develop a basic implementation and design plan including a platform diagram with basic sizing estimates and an implementation agenda to direct the onsite activities. Topics outside the scope of the ArcGIS Enterprise Jumpstart include but are not limited to: Migration of Databases and Applications, Systems Integration, System Architecture Design, Security Review, High Availability, Performance Tuning, and Application Development. The price includes airfare, hotel, car rental, per diem, and other direct costs. On-site support will be provided at a mutually agreed upon customer location during one trip within the United States on consecutive business days during a single work week. By purchasing this service, the customer agrees to Services Packages Terms and Conditions (G-363-D Addendum) which shall take precedence over any other terms and the customer’s purchase order. If not attached, these Terms and Conditions can be viewed on the web at http://www.Esri.com/legal/service-agreements.html. This services package requires the customer to prepare for Esri’s visit. The preparation requirements are outlined at http://www.Esri.com/legal/service-agreements.html and all services will be provided in accordance with the requirements and assumptions provided therein. Scheduling will be based on resource availability.</p>	\$15,000.00
