

Esri at DISTRIBUTECH 2020

Geoenabling the Modern Utility

Henry B. Gonzalez Convention Center | San Antonio, Texas | January 28-30, 2020

UDC

Tuesday January 28 – 11:30am – 11:50am in the Esri Demo Theater (Booth #2047)

Presentation Title

Moving Utilities from a Reactive to a Proactive Reliability Approach

Description

Feeder Sentinel™ is an ArcGIS Enterprise based reliability analysis dashboard solution helping utilities to analyze data from across the organization to make proactive and informed business decisions. See a live demo of multiple system analytics working together in one application and leveraging ArcGIS Insights integration to drive deeper reliability information analysis than ever before.

Presented by: TJ Houle, Sr. GIS Consultant - UDC
