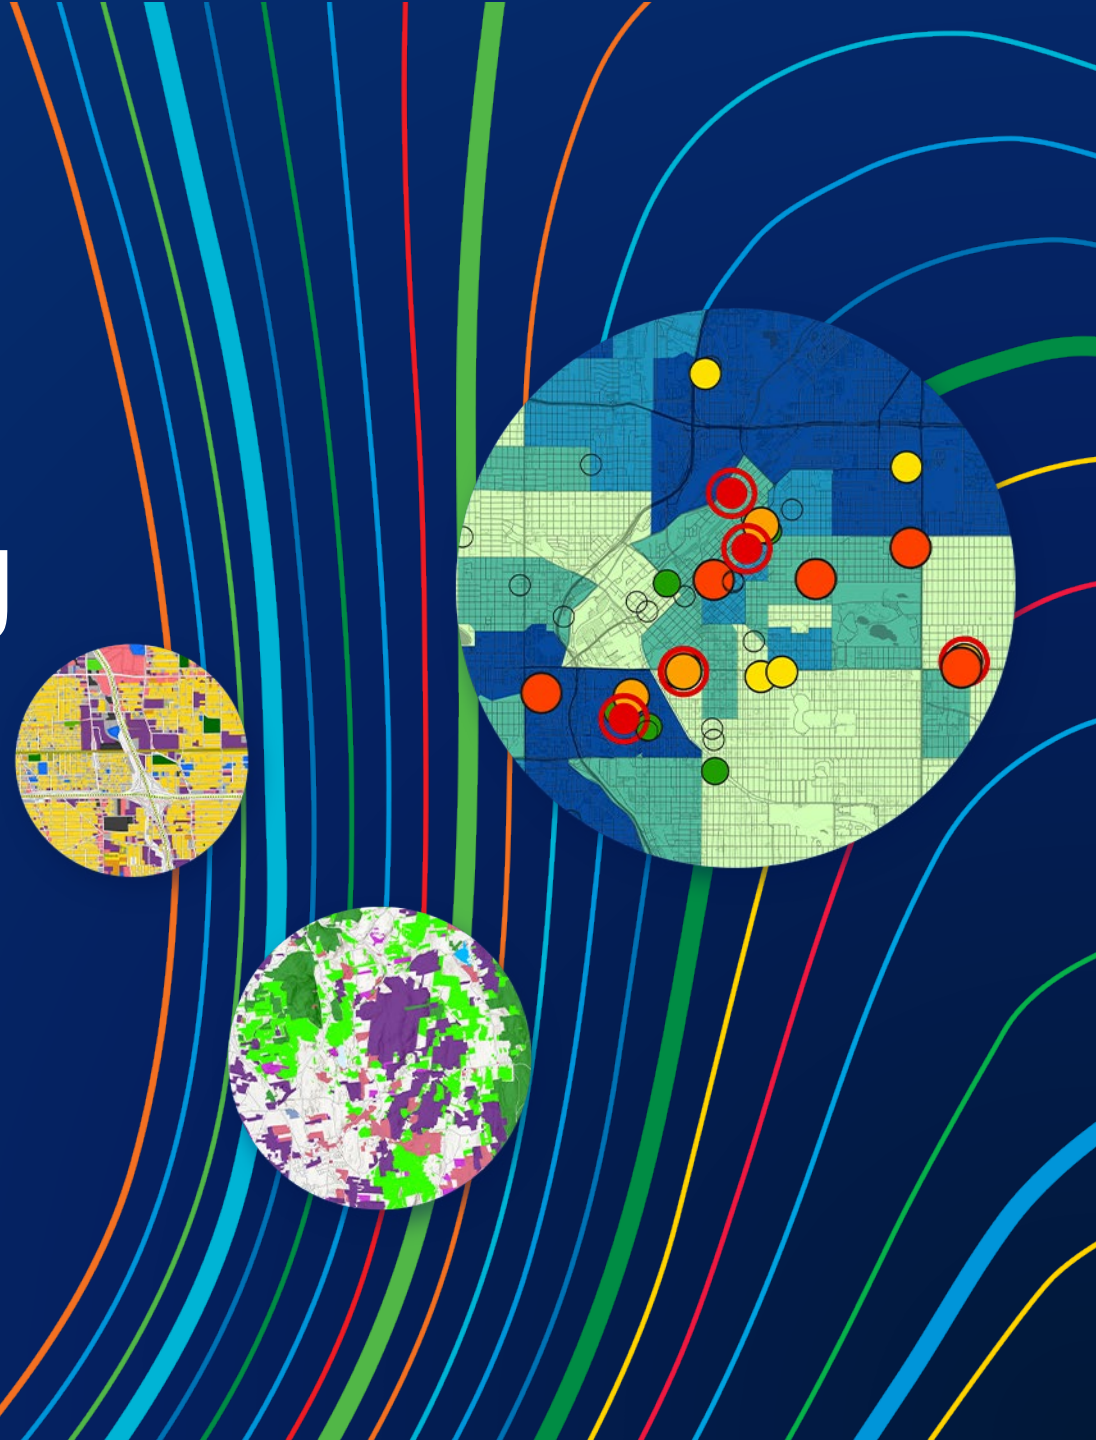
ArcGIS Online – Sharing and Collaboration

- Use cases for Sharing and Collaboration
- Sharing Basics and Sharing through Groups
- Partnered Collaboration
  - Demonstration

Use Cases for Sharing and Collaboration



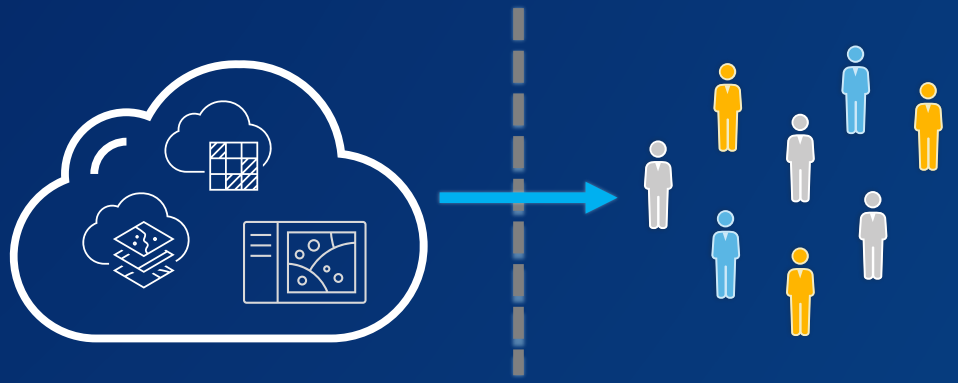
Use Cases for Sharing and Collaboration

Within organizations

- To share content between departments

- To share content between headquarters and regional/country/field offices

- To share content publicly without having to give access to your ArcGIS System

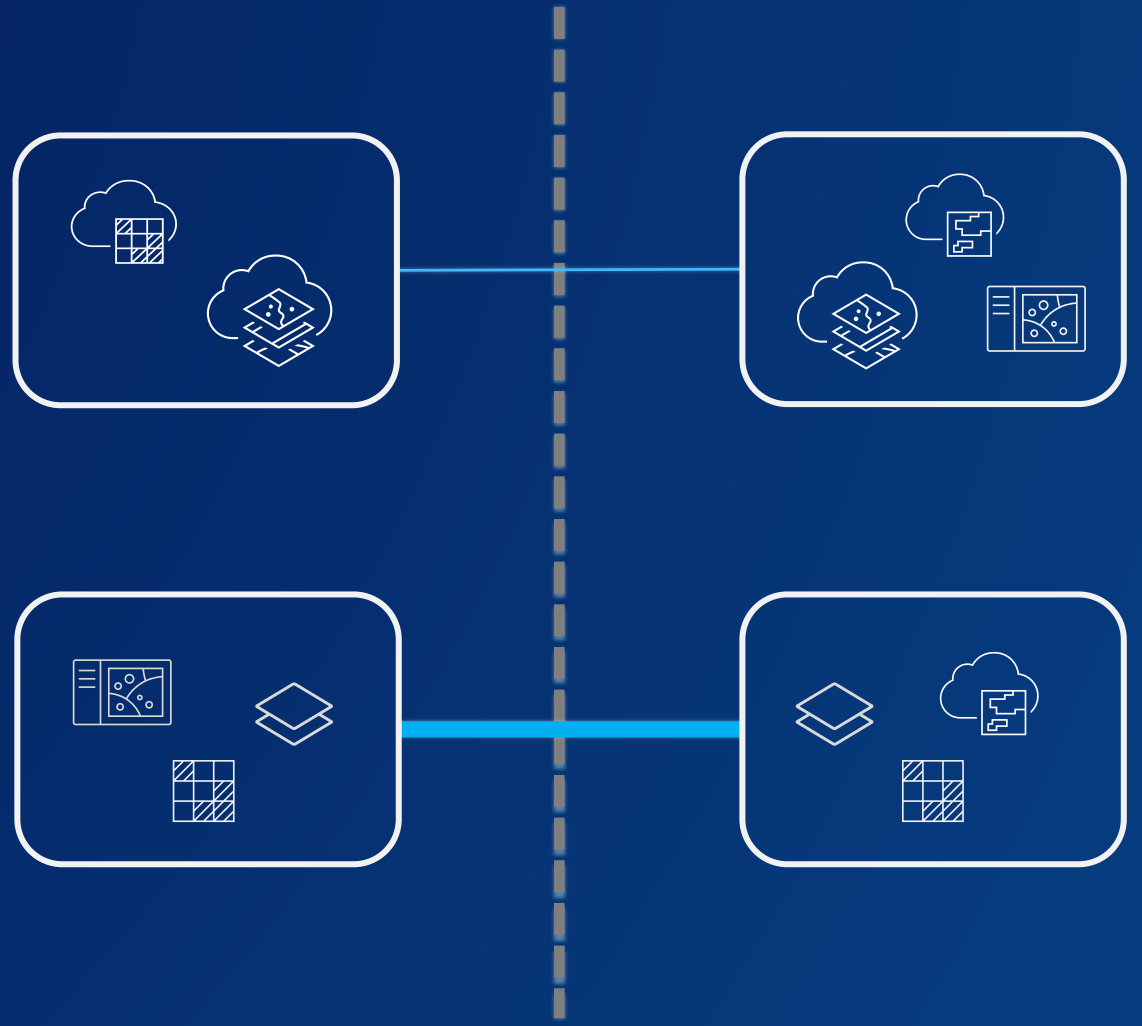


Use Cases for Sharing and Collaboration

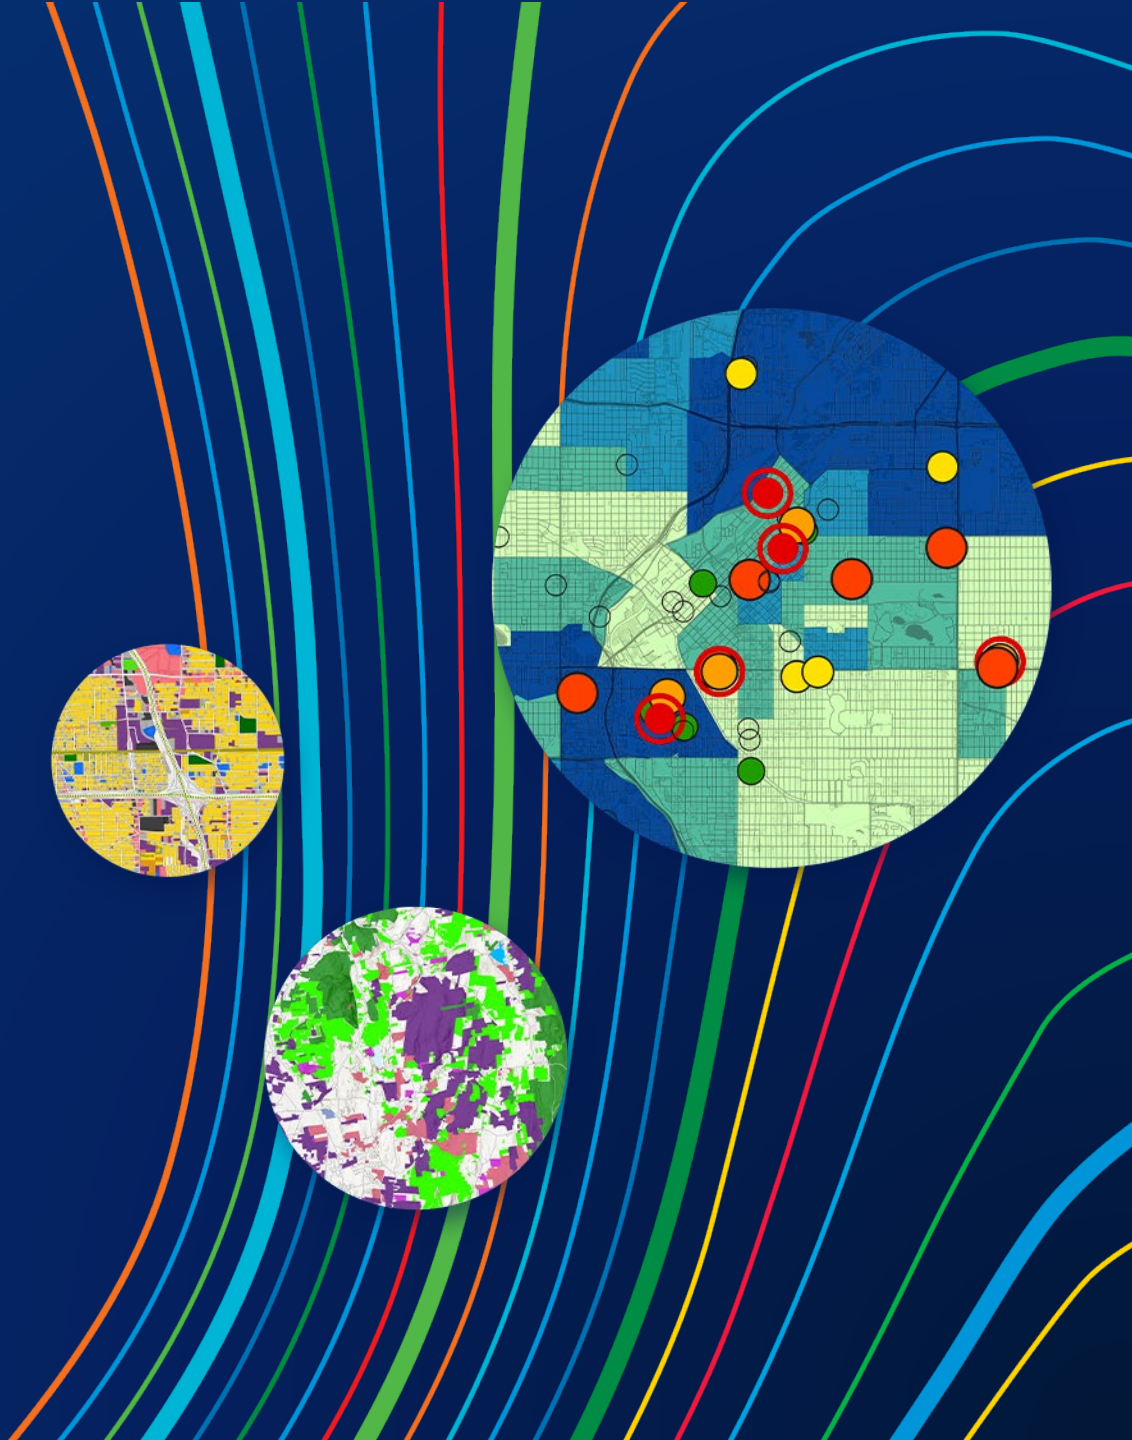
Between organizations

- To share content *temporarily*, without having to grant access to other organizations/agencies

- To share content on a *long-term basis*, without having to grant access to other organizations/agencies



Sharing Basics



Sharing Basics

Groups

Sharing Basics

Groups

Group Setup

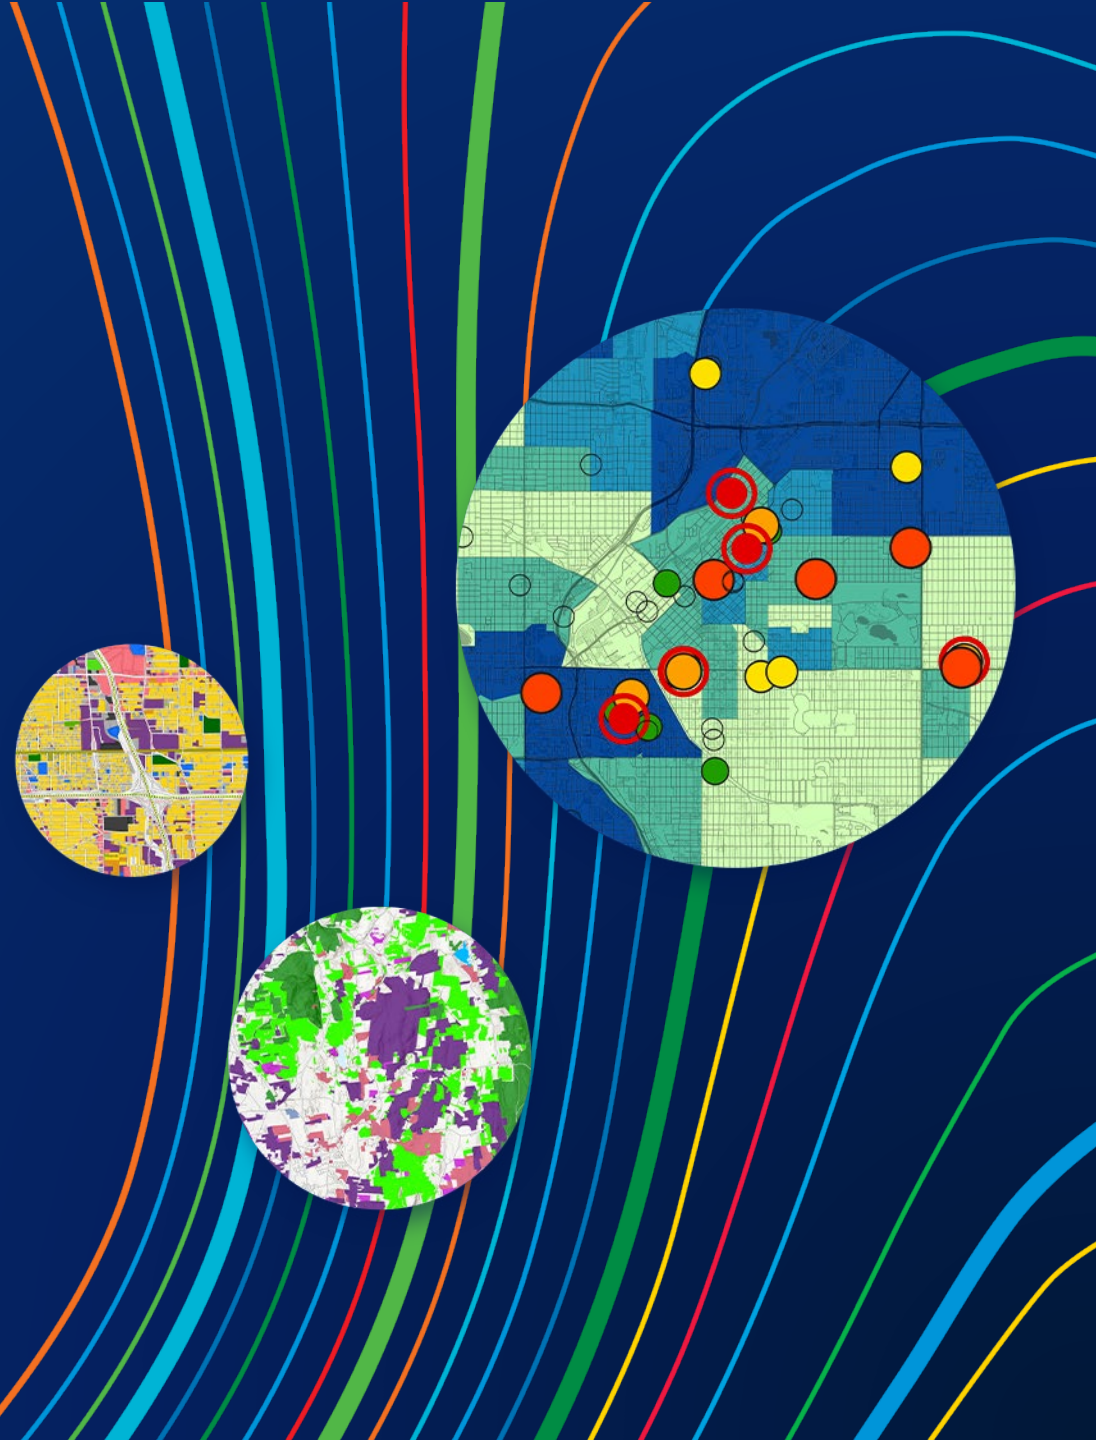
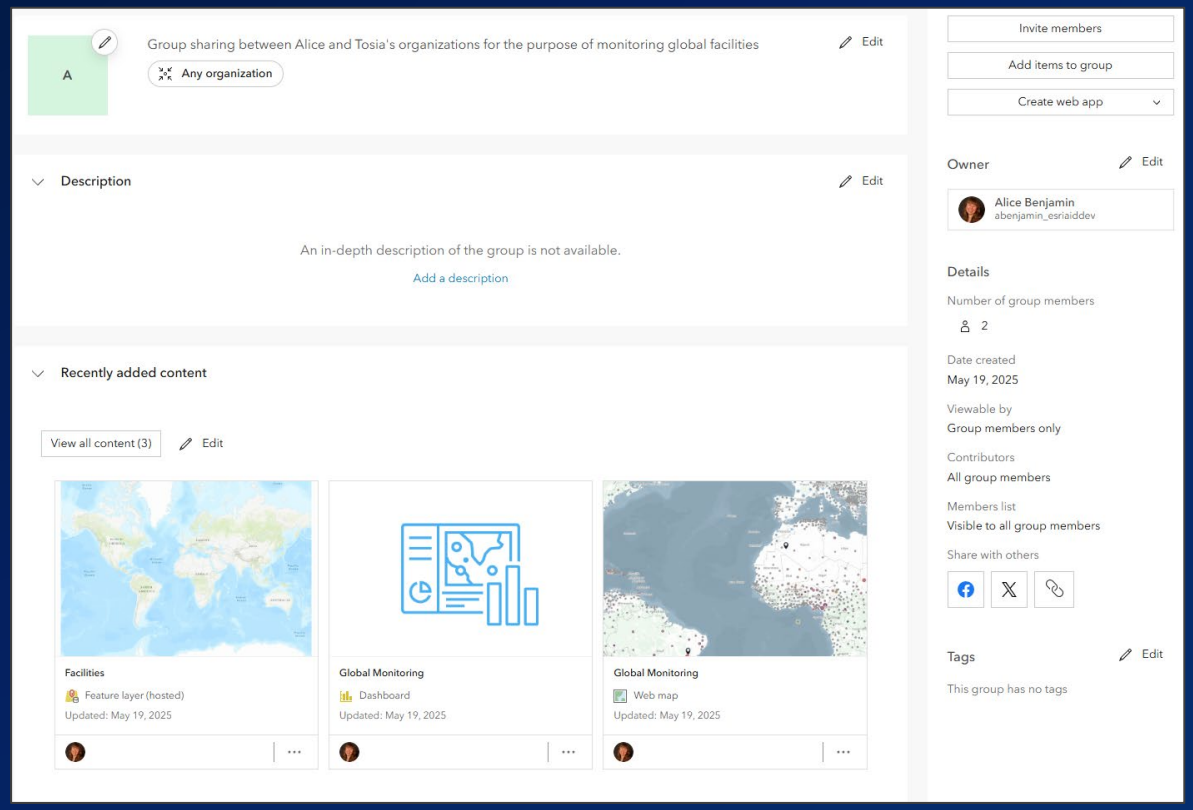
- Who can view?
- Who can be in the group?
- How can people join?
- Who can contribute?
- **Who can see members?**
- Group designations
  - **Shared update**
  - **Administrative**
  - Open data

Sharing Basics

Collaborations

Sharing through Groups





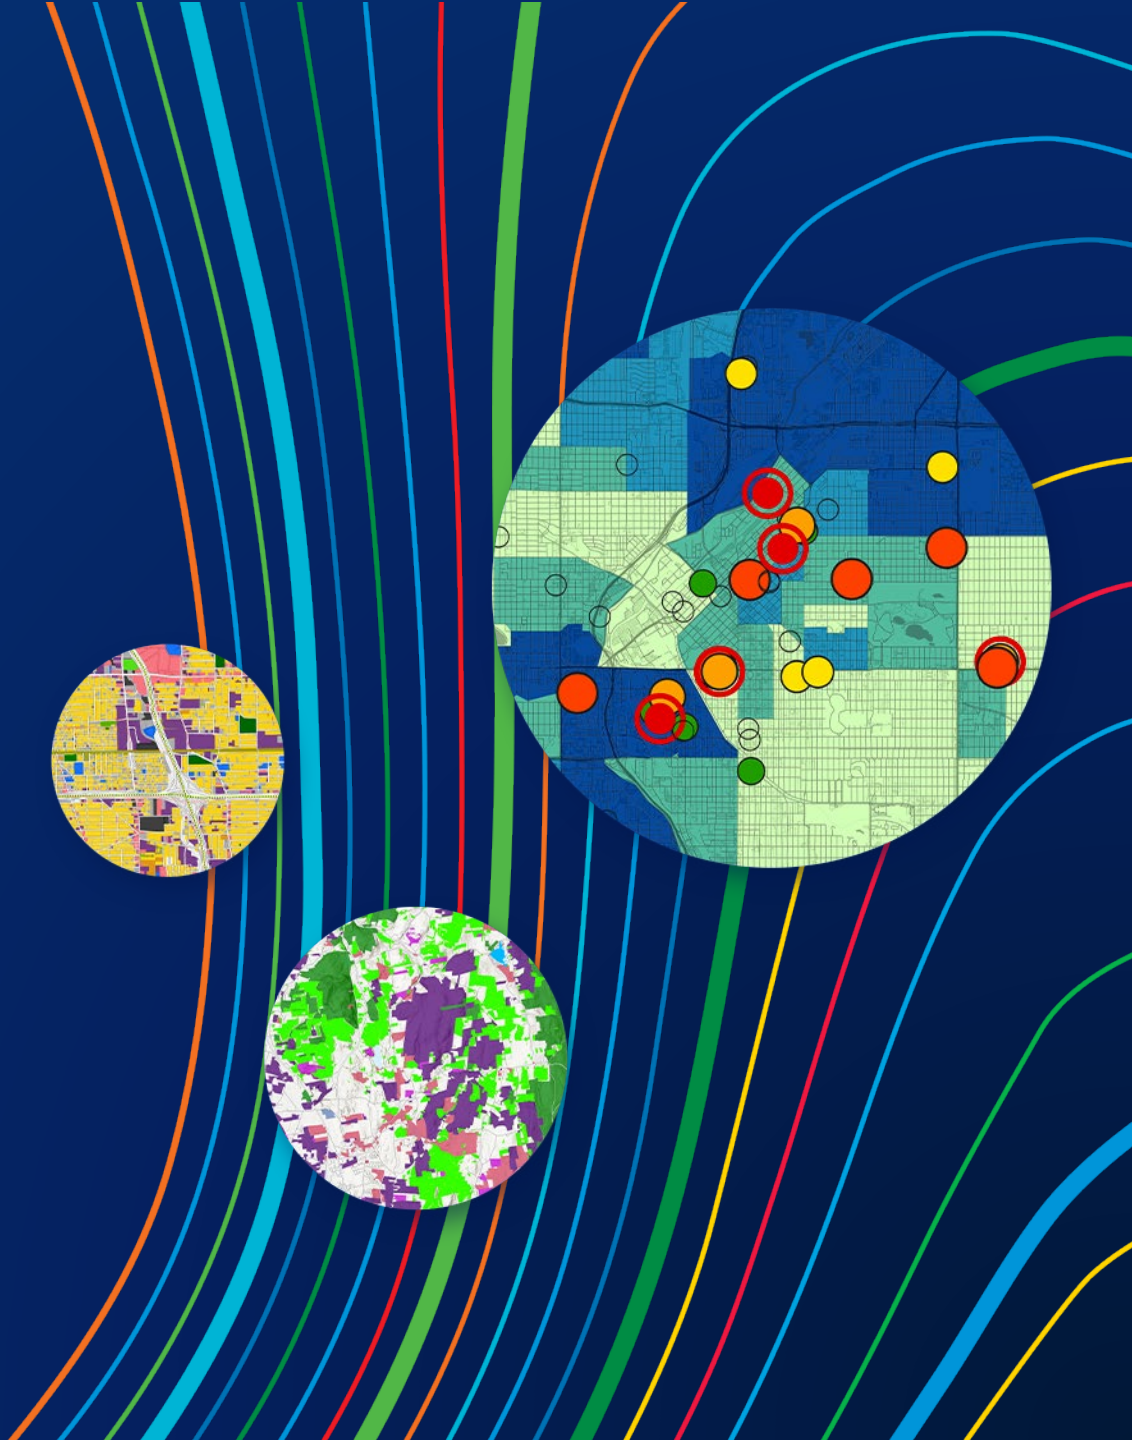
Group sharing with external members

Working in groups with external members

Restrictions

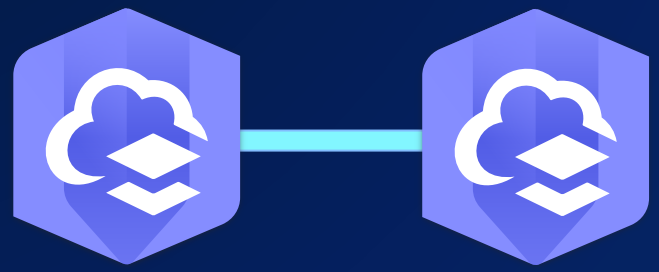
	No collaboration	Partnered collaboration
Add members to a group without invitation		✓
Promote to group manager		✓
Filter group members by organization name		✓
Participate in shared update groups		✓

Partnered Collaboration



Partnered Collaboration

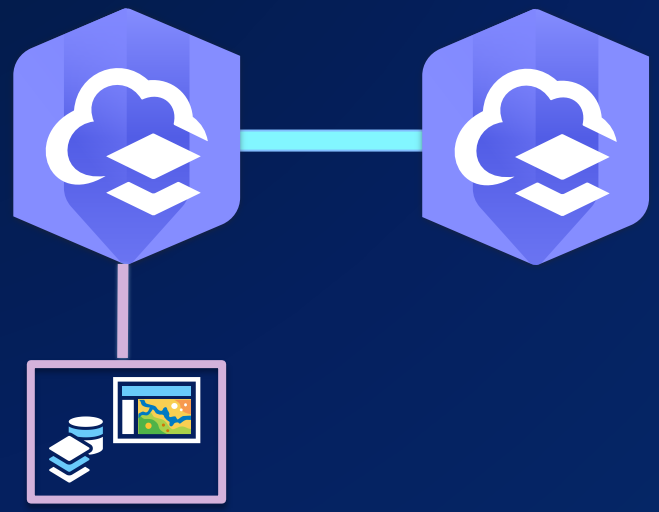
ArcGIS Online to ArcGIS Online

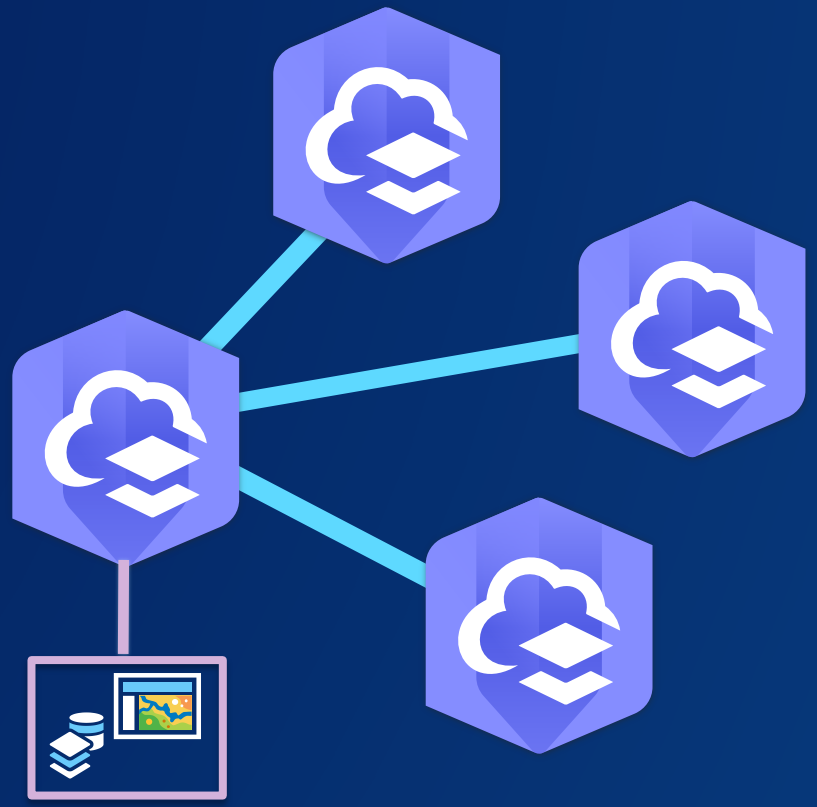


- Share content between ArcGIS Online and ArcGIS Online(s)
- Can partner with up to 20 Online organizations

Partnered Collaboration

ArcGIS Online to ArcGIS Online





- Share content between ArcGIS Online and ArcGIS Online(s)
- Can partner with up to 20 Online organizations
- Shared content does not move, it stays in one org and is shared in a group
