THE HUMANITARIAN RESET

PUTTING THE PEOPLE WE SERVE FIRST

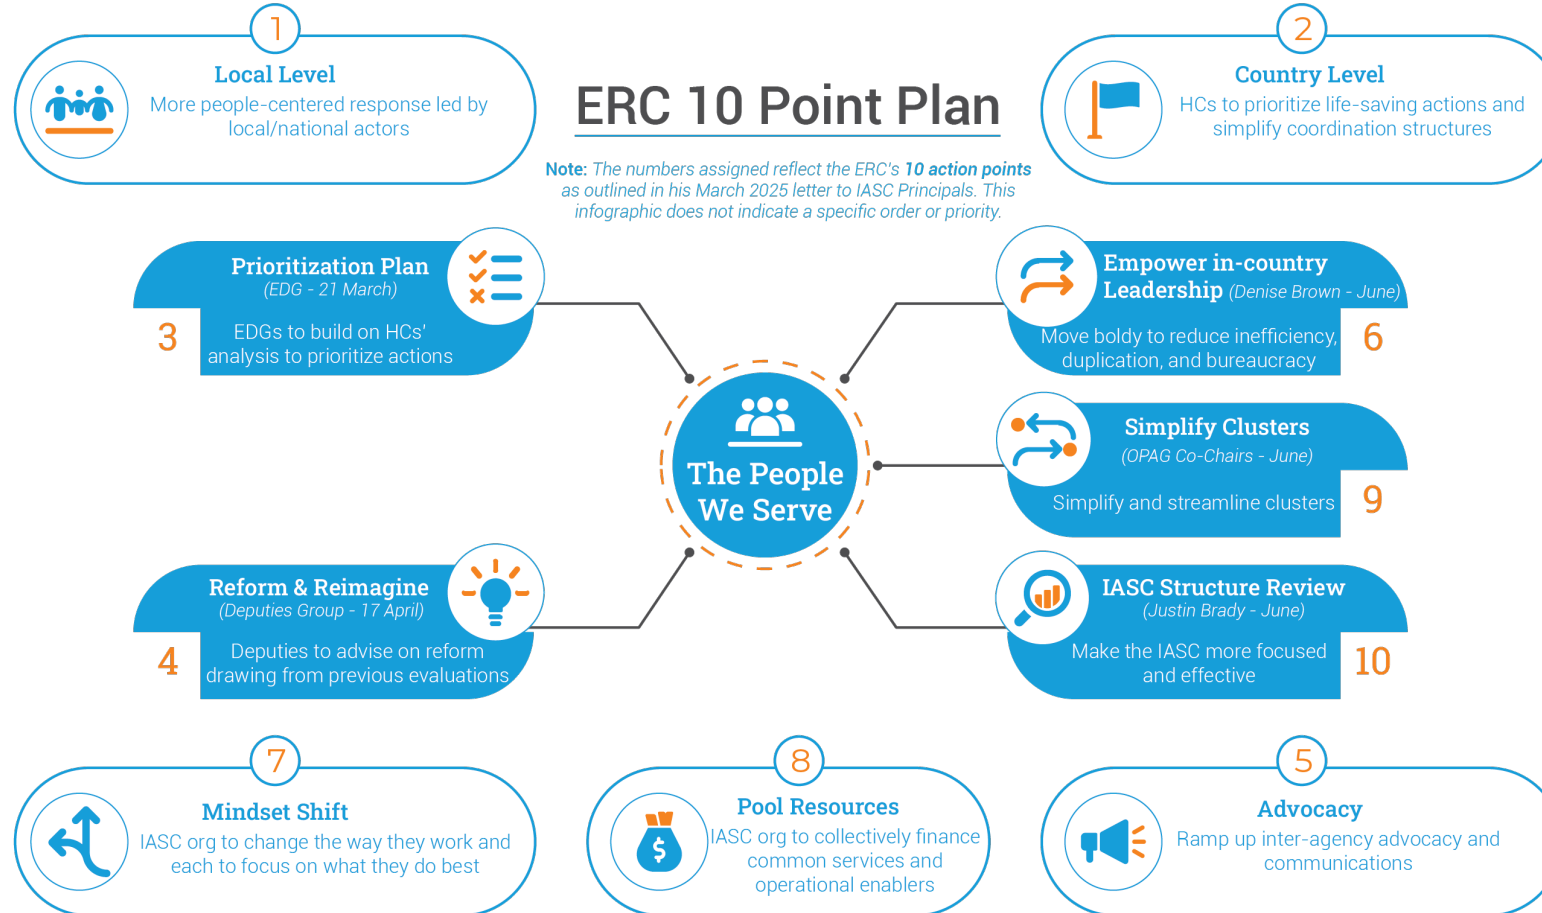

● **DEFINE** why we are here

● **DELIVER** effectively and efficiently

● **DEVOLVE** to local partners

● **DEFEND** IHL and our work

UN80 Workstreams

① Identify efficiencies and improvements in our ways of working

② Review the implementation of mandates

③ UN system strategic review and realignment

UN reforms include common services relevant to NGOs

The Humanitarian Reset emphasizes a people-first approach and local and national leadership.

What does this look like, in practice, to you and the communities you represent through your work?

What are the elements that lead to local and national leadership of humanitarian processes?

What role does (geographic)
information management play in this?
How best can the audience in front of you
(humanitarian GIS practitioners and managers)
contribute to the humanitarian reset?
