

# Imagery Is Core to GIS

## Maximize Imagery's Value with ArcGIS®

- Simple management of small to massive imagery collections
- One-click enhancement and processing of imagery
- Fast and seamless display of imagery
- Desktop, Web, and mobile access
- Easy image classification
- Dynamic mosaicking and on-the-fly processing

## Manage

The mosaic dataset simplifies imagery management with dynamic mosaicking and on-the-fly processing.

# ArcGIS

## Visualize

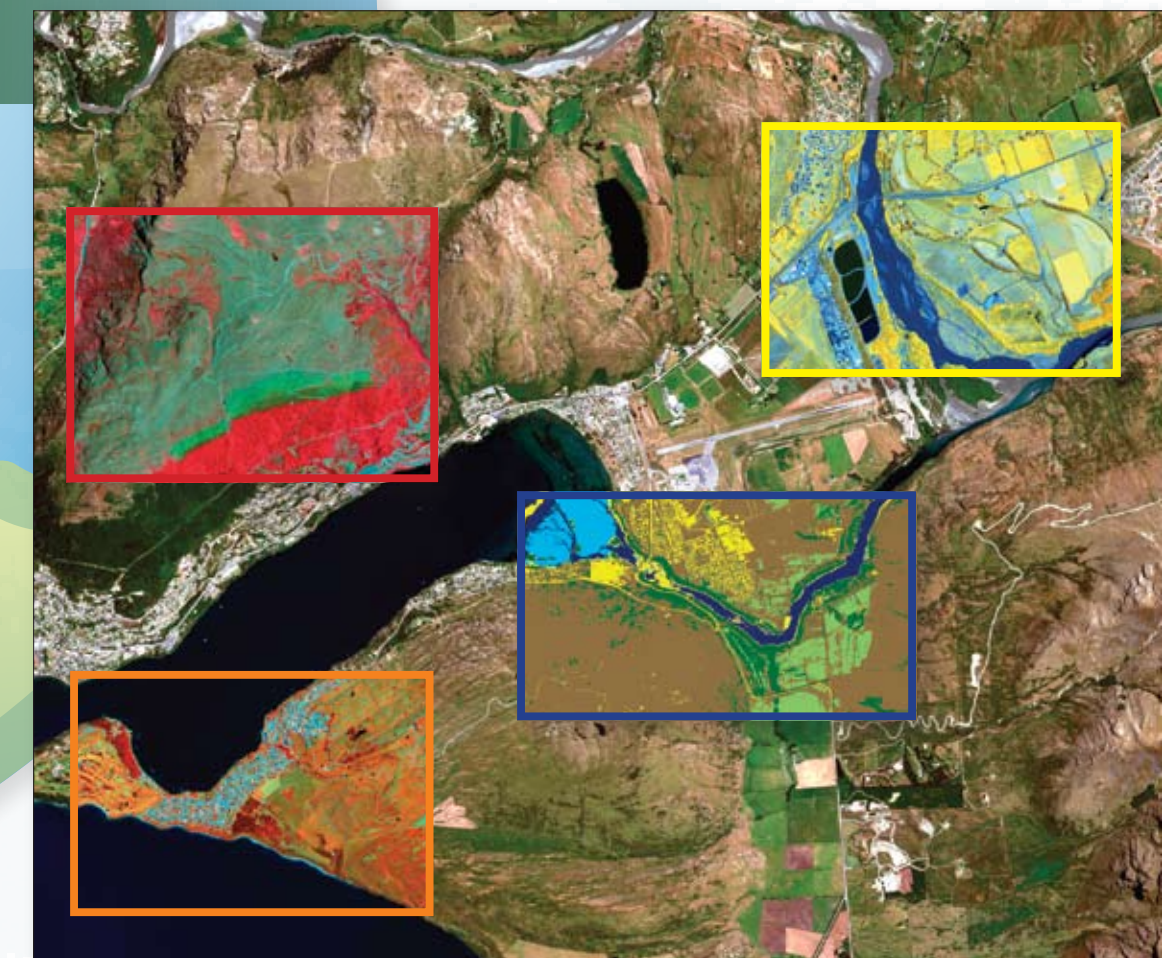

The advanced image display uses hardware and software rendering for fast and seamless exploration.

## Disseminate

Quickly and easily get imagery to those who need it, wherever they need it.

## Analyze

Pull actionable information from imagery with simple analysis tools.
