

This figure is a detailed map of a portion of the Texas Natural Resources Information System's (TNRIS) implementation of *The National Map*. The map is a topographic basemap data model and map specification for the Texas Natural Resources Information System's (TNRIS) implementation of *The National Map*. It includes page specifications for symbols, text, and layers, as well as other GIS data models in the ArcGIS Desktop section at support.esri.com/datamodels on the Web.

The map displays various features including roads, hydrography, and topography. Key features include:

- Roads:** Major highways, ramps, and streets are shown with different line styles and colors. A legend for roads is provided, detailing symbols, values, and labels.
- Hydrography:** The Colorado River and other water bodies are depicted. A legend for hydrography lines is included, showing coded values and descriptions.
- Topography:** Contour lines and elevation points are shown. A legend for topography features is provided, detailing symbols, values, and labels.
- Annotations:** Various annotations are present, including labels for roads, hydrography, and topography. A legend for annotations is included, detailing symbols, values, and labels.
- Scale and Orientation:** The map includes a scale bar (1:24,000) and a north arrow.
- Legend:** A legend for common features is provided, detailing symbols, values, and labels.
- Revision Information:** A table of revision information is included, detailing the history of the map.
- Comprehensive Names Tables:** A table of comprehensive names is included, detailing the names of the features.

The map is a detailed representation of the Texas Natural Resources Information System's (TNRIS) implementation of *The National Map*. It includes page specifications for symbols, text, and layers, as well as other GIS data models in the ArcGIS Desktop section at support.esri.com/datamodels on the Web.
