Understanding the ArcGIS platform

1 Getting started with ArcGIS Pro

Lesson introduction
ArcGIS Pro interface and structure
ArcGIS Pro and the ArcGIS platform
ArcGIS Pro structure
Comparing ArcMap and ArcGIS Pro
Exercise 1: Explore ArcGIS Pro functionality
- Create a project
- Explore the project folder structure
- Add a map and layers
- Navigate the map
- Modify layer symbology
- Select and explore features
- Select features by attributes
- Select features by location

Lesson review
Answers to Lesson 1 questions

2 Sharing resources using ArcGIS Pro

Lesson introduction
Project templates
Exercise 2A: Import an ArcMap document
- Import a map document into ArcGIS Pro
- Explore the imported document
- Add a folder connection
- Add styles
- Create a project template
- Apply a project template

What is an ArcGIS portal?

Sharing with ArcGIS Pro
Sharing options in ArcMap and ArcGIS Pro
Where to share resources
ArcGIS Online resources
Choosing a sharing option
Using tasks to share processes
Exercise 2B: Share items using ArcGIS Pro
    Create a layer package
    Add a shared layer package to a map
    Create and share a web layer
    Create and share a web map
    Access shared content in ArcGIS Pro
    View shared items in ArcGIS Online
Lesson review
Answers to Lesson 2 questions

3 Editing features and attributes

Lesson introduction
Schema review
ArcGIS Pro editing environment
Exercise 3A: Edit schema
    Create a project
    Create a feature class
    Modify fields
    Create a domain
    Apply a domain to a field
    Create subtypes
Review of schema editing concepts
Editing review
Basic editing
Exercise 3B: Edit features and attributes
    Find the area of interest
    Prepare the editing environment
    Create features using measurements
    Update attributes
    Create a feature by tracing
    Modify vertices
    Calculate a field
Lesson review

Answers to Lesson 3 questions

4 Symbolizing and displaying data

Lesson introduction
Symbology review
Symbolizing layers
Exercise 4A: Modify symbology and display of layers
- Create a map and add layers
- Change layer display properties
- Symbolize using unique values
- Symbolize using graduated colors
- Change classification properties
- Symbolize a line layer
- Symbolize a point layer
- Set scale-based symbols
- Set scale ranges for layers

Labeling
Exercise 4B: Label features
- Set basic labeling properties
- Set scale ranges for labels
- Create label classes

Checkpoint
Vector tile layers
Exercise 4C: Create and share a vector tile package
- View map properties
- Build vector tiles
- Add a tile package to a new map
- Challenge: Share a vector tile package

Lesson review
Answers to Lesson 4 questions
Exercise 4C challenge solution

5 Displaying raster data

Lesson introduction
Raster display
Raster functions
Displaying raster data
Exercise 5: Symbolize rasters and use raster functions
- Modify raster symbology
- Create surfaces using raster functions
- Use a raster function to create a composite raster layer
- Use a raster function to create a NDVI

Interpolate a peak ground acceleration surface
Interpolate a peak ground velocity surface
Create a map package
Lesson review
Answers to Lesson 5 questions

6 Working with 3D data

Lesson introduction
3D for display and analysis
Local and global scenes
Choose the correct type of scene
Scene elevation source
Displaying data in 3D
Exercise 6: Visualize data in 3D
Add a map and layers
Convert a map to a scene
Add an elevation source
Display vector layers in 3D
Extrude the structures layer
Display 3D models
Lesson review
Answers to Lesson 6 questions

7 Performing analysis

Lesson introduction
ArcGIS Pro analysis methods
Using ArcMap resources in ArcGIS Pro
Exercise 7A: Perform spatial analysis
Import a map document
Create a model
Select the county
Add the Clip tool to the model
Add the Intersect tool to the model
Add the Spatial Join tool to the model
Add the Erase tool and run the model
Explore and symbolize the surge layer
Select shelter candidates 5 kilometers from the storm surge
Symbolize schools based on storm surge
Map layouts
Exercise 7B: Create a map layout
Prepare the map page
Add a map frame and title

Add a north arrow
Add a scale bar
Add a legend
Add a grid
Add another layout to the project
Share the layout
Lesson review
Answers to Lesson 7 questions

Appendices

Appendix A: Esri data license agreement
Appendix B: Answers to lesson review questions
Appendix C: Additional resources
