Table of Contents

Esri resources for your organization

Course introduction

Course introduction
Course goals
Installing the course data
Icons used in this workbook

1 ArcGIS field operations introduction

Lesson introduction
The geoinformation model in ArcGIS
Field activities overview
Explore ArcGIS field operations apps
Decision factors for data capture field apps
Choosing a data capture field app
Which apps support your field activities?
Lesson review
Answers to lesson 1 questions

2 Preparing for field operations

Lesson introduction
Controlling access with groups in ArcGIS Online
Exercise 2A: Create a group in ArcGIS Online
- Sign in to an ArcGIS Online organization
- Create a folder
- Create a group for sharing data
- Create a second group
- Configure the group
- Create a third group
- Configure the group

Content requirements for ArcGIS field apps
Preparing content for field apps
Improving data collection efficiency in field apps
Exercise 2B: Configure a feature layer in ArcGIS Online
- Publish a hosted feature layer from a zipped file geodatabase
- Update item details for the hosted feature layer
- Configure a list for a feature layer

Publishing a web map for field apps
Lesson review

Answers to lesson 2 questions

3 ArcGIS Field Maps introduction

Lesson introduction
ArcGIS Field Maps benefits
Configuration options in ArcGIS Field Maps Designer
The ArcGIS Field Maps Designer interface
Exercise 3A: Create a web map in ArcGIS Field Maps Designer
- Sign in to an ArcGIS Online organization
- Create a new web map and feature layer
- Configure item details
- Add layers to your web map
- Symbolize map layers
- Add new features

Explore app settings for the Field Maps mobile app
The ArcGIS Field Maps mobile app interface
Taking notes and drawing sketches with markup
Exercise 3B: Collect field notes in the ArcGIS Field Maps mobile app
- Sign in to the Field Maps mobile app
- Open a web map
- Create markers
- Draw sketches
- Share the markup
- Review the shared markup

Lesson review
Answers to lesson 3 questions

4 Configuring forms for data collection in ArcGIS Field Maps Designer

Lesson introduction
ArcGIS Field Maps forms
Form configuration options
Identify form elements
Configuring form elements in Field Maps Designer
Exercise 4A: Use Field Maps Designer to configure forms for data collection
- Sign in to an ArcGIS Online organization
- Configure a form for a feature layer
- Configure a form for a related table
- Open the ArcGIS Field Maps mobile app
- Open the web map
- Place a new asset
- Conduct an inspection
- Review the new data

Adding logic to forms
Exercise 4B: Use Field Maps Designer to add logic to forms
Configure conditional visibility
Configure a calculated expression
Configure a second calculated expression
Review updated forms in the Field Maps mobile app
Lesson review
Answers to lesson 4 questions

5 Creating data collection forms in ArcGIS Survey123

Lesson introduction
ArcGIS Survey123 benefits
ArcGIS Survey123 components
ArcGIS Survey123 component functions
Exploring the ArcGIS Survey123 web designer interface
Exercise 5A: Create a form using the ArcGIS Survey123 web designer
Sign in to an ArcGIS Online organization
Create a new survey
Configure form questions
Configure a form question rule
Publish the survey
Share the survey
Download the survey on your device
Submit surveys
Create a web map
Creating forms using ArcGIS Survey123 Connect
Exercise 5B: Configure calculations for form questions in the web designer
Write a question calculation
Write a survey calculation
Write a layer calculation
Publish the survey
Download the survey on your device
Submit a survey
View the survey submissions
Lesson review
Answers to lesson 5 questions

6 Updating a feature layer with ArcGIS QuickCapture

Lesson introduction
ArcGIS QuickCapture benefits
Relevant real-time observations
ArcGIS QuickCapture button creation

Preparing data for an ArcGIS QuickCapture project
Exercise 6A: Create the data for an ArcGIS QuickCapture project
Create a feature layer
Add a field
Create a list of choices
Configure editor tracking
Symbolize the layer
Share the web map
ArcGIS QuickCapture project configuration options
Exercise 6B: Capture observations with ArcGIS QuickCapture
Create a QuickCapture project
Configure the button position
Configure the button symbology
Group the buttons
Prepare to share your project
Use the mobile app on your device
View observations in a web map
Lesson review
Answers to lesson 6 questions

7 Organizing your field activities with ArcGIS Dashboards

Lesson introduction
ArcGIS Dashboards benefits
ArcGIS Dashboards elements
Sources of data for ArcGIS Dashboards
Configuration settings for dashboard elements
Exercise 7: Create an interactive dashboard to display field activity
Create a dashboard in ArcGIS Dashboards
Add a map element to the dashboard
Add a list element to the dashboard
Add an indicator element to the dashboard
Add interactivity between elements
Lesson review
Answers to lesson 7 questions

Appendices

Appendix A: Esri data license agreement
Appendix B: Answers to lesson review questions
Appendix C: Additional resources
