## Course introduction

Course introduction  
Course goals  
Installing the course data  
Icons used in this workbook  
Understanding the ArcGIS platform

1 **ArcGIS apps for the field**

Lesson introduction  
The ArcGIS platform  
Identity-based security  
Exercise 1: Create a group  
  - Sign in to the course ArcGIS Online organization  
  - Create a mobile workers group  
  - Explore the group page  
Field operations overview  
Comparing Collector and Survey123  
App integration  
Lesson review  
Answers to Lesson 1 questions

2 **Generating service requests**

Lesson introduction  
Field operations overview  
Exploring a service request web app  
Web apps  
Web maps  
Web layers  
Creating a service request web app  
Exercise 2: Create a service request web app  
  - Create a Service Request layer  
  - Create a web map  
  - Create a web app  
  - Configure the web app  
  - Test your web app  
  - Share your web app  
Lesson review
Answers to Lesson 2 questions

3 Coordinating work assignments

Lesson introduction
Field operations overview
Workforce for ArcGIS
Workforce projects
Workforce roles
Creating a Workforce project
Exercise 3A: Create a Workforce project
  Create a project
  Add assignment types
  Add mobile workers
  Add more dispatchers
  Enable location tracking
  Configure the maps
Creating and assigning assignments
Exercise 3B: Create and assign assignments
  Determine assignment location
  Gather additional information
  Complete assignment details
  Review assignment options
Using the Workforce mobile app
Exercise 3C: Use the Workforce mobile app (Android)
  Open a Workforce project
  Review and start an assignment
  Change working status
  Change assignment status
  Add a note to an assignment
  Finish an assignment
Exercise 3D: Use the Workforce mobile app (iOS)
  Open a Workforce project
  Review and start an assignment
  Change working status
  Change assignment status
  Add a note to an assignment
  Finish an assignment
Workforce roles
Lesson review
4 Navigating to work locations

Answers to Lesson 3 questions

Lesson introduction
Field operations overview
Navigator for ArcGIS
Navigation maps
Adding navigation data to a map
Exercise 4A: Add navigation data to a map
  Download StreetMap Premium data
  Add asset layers
Address locators
Travel modes
Creating locators and setting travel modes
Exercise 4B: Create locators and set travel modes
  Create an asset locator
  Test the asset locator
  Check for a general USA address locator
  Test the USA address locator
  Create a custom travel mode
Creating and sharing a mobile map package
Exercise 4C: Create and share a mobile map package
  Create and share a map package
Using the Navigator app
Lesson review

5 Creating a web map for use with Collector for ArcGIS

Lesson introduction
Field operations overview
Collector for ArcGIS
Designing data for the field
Exploring the domains of the inlet data
Creating a web layer for data collection
Exercise 5A: Create a web layer for data collection
  Create a new project
  Import an ArcMap document
  Publish the web layer
  Check settings in ArcGIS Online
Creating a web map for data collection
Exercise 5B: Create a web map for data collection
  Create a web map
  Configure the web map for searching
6 Creating a smart form with Survey123

Lesson introduction
Field operations overview
Survey123 - How it works
Smart forms
Components of Survey123
Creating a survey on the web using Survey123
Exercise 6: Create a survey on the web using Survey123
  Examine the paper form
  Create a new survey
  Add questions to a survey
  Publish a survey
  Share a survey
  Integrate with Workforce
  Submit a survey
Survey123 Connect
Survey123 components and functions
Lesson review

7 Creating a dashboard to monitor operations

Lesson introduction
Field operations overview
Operations Dashboard for ArcGIS
Elements
Data sources
Filters
Discovering Operations Dashboard elements
Selecting elements based on reporting needs
Creating a dashboard
Exercise 7: Create a dashboard
  Create a web map for your dashboard
  Create a dashboard
  Add a Map element
  Track types of service requests
  Track the number of recent requests
  Monitor work assignments
  Monitor inspection progress
  Monitor survey results
Lesson review
Answers to Lesson 7 questions

8 Field data collection and monitoring

Lesson introduction
Field operations overview
Choosing a data collection tool
Exercise 8A: Perform field data collection and monitoring (Android)
   - Sign in to the apps
   - Begin an assignment with Workforce
   - Collect data with Collector
   - Complete a survey with Survey123
   - Finish an assignment with Workforce
Exercise 8B: Perform field data collection and monitoring (iOS)
   - Sign in to the apps
   - Begin an assignment with Workforce
   - Collect data with Collector
   - Complete a survey with Survey123
   - Finish an assignment with Workforce
Lesson review
Answers to Lesson 8 questions

Appendices

Appendix A: Esri data license agreement
Appendix B: Software and licensing
Appendix C: Choosing between Collector and Survey123
Appendix D: Answers to lesson review questions
Appendix E: Additional resources
