Esri resources for your organization

Course introduction

- Course introduction
- Course goals
- Installing the course data
- Icons used in this workbook

1 Introduction to branch versioning

- Lesson introduction
- What is branch versioning?
- Benefits of branch versioning
- How branch versioning can benefit an organization
- Enabling branch versioning in ArcGIS Pro
- Consider ArcGIS Enterprise versioning options
- Exercise 1: Prepare data for branch versioning
 - Ensure that the data meets the requirements
 - Make a connection for branch versioning
 - Enable data options to support branch versioning
- Lesson review
- Answers to Lesson 1 questions

2 Sharing data to support branch versioning

- Lesson introduction
- Examine the publishing workflow
- Registering user-managed data with ArcGIS Enterprise
- Sharing branch versioned data
- Exercise 2: Isolate edits in a branch version
 - Share data as a web layer
 - Fix analyzer errors and publish the data
 - Access the Versioning tab
 - Create a named version
 - Make edits in a named version
 - Manage the test versions
- Lesson review
- Answers to Lesson 2 questions

3 Managing permissions

- Lesson introduction

- ArcGIS Enterprise permission basics
- Explore branch version access
- Portal user roles
- Explore group access to branch versioned data
- Exercise 3A: Assign permissions to roles
 - Create a group for edit access
 - Share branch versioned data for editing
 - Create a group for view-only access
 - Provide versioning access to a user
- Protecting the DEFAULT version
- Exercise 3B: Protect the DEFAULT version
 - Protect the DEFAULT version
 - Access the feature layer
 - Create a version for editing
 - Post edits to DEFAULT as the version administrator
- Lesson review
- Answers to Lesson 3 questions

4 Conflict detection

- Lesson introduction
- Implementing conflict detection
- Editing in DEFAULT and named versions
- Reconcile and post situations
- Exercise 4: Resolve editing conflicts
 - Make the DEFAULT version public
 - Perform the first editor's edits
 - Perform the second editor's edits
 - Investigate the conflicts
 - Resolve the conflicts
 - Determine who made the changes
- Lesson review
- Answers to Lesson 4 questions

5 Offline multiuser editor workflows

- Lesson introduction
- Use cases for offline multiuser editing
- Preparing data for offline use
- Enabling the sync capability for offline edits
- Synchronizing offline edits
- Exercise 5: Edit and synchronize offline data
 - Prepare for offline editing
 - Reconfigure the feature layer service

Download the map and make offline edits
Sync and delete the map download
Lesson review
Answers to Lesson 5 questions

Appendices

Appendix A: Esri data license agreement
Appendix B: Answers to lesson review questions
Appendix C: Additional resources
