

The ArcGIS User Seminar

Getting the Most Value from Your ArcGIS

Time

Agenda

8:00 AM–8:30 AM

Registration

8:30 AM–10:00 AM

The Power of ArcGIS 10.5

Discover how ArcGIS has evolved to expand your capabilities at 10.5.

Success Story: CalOES—California Governor's Office of Emergency Services

We'll share how the state agency leveraged ArcGIS to transition from paper to digital mapping, and changed the way they do business.

Unlocking the Value of ArcGIS with Apps

Learn about ArcGIS apps and how they can help you become more productive in your work. Demonstrations will show you how apps and app pairings allow you to support entire workflows.

- o The ArcGIS Pro experience
- o Supporting the entire field operations with ArcGIS Apps
- o Sharing and collaboration

10:00 AM–10:30 AM

Break, Refreshments, and Peer Discussions

10:30 AM–NOON

Turn Data Into Insights with Spatial Analysis

Success Story: Walgreens

A highlight of how the drugstore chain with over 8,000 locations uses ArcGIS across the enterprise to think locationally.

The Language of Spatial Analysis

Get introduced to the Language of Spatial Analysis. Understand how applying it can help you and your organization make better decisions through demonstrations of:

- o Insights for ArcGIS
- o Exploring real-time and large volumes of data with ArcGIS GeoEvent Server, ArcGIS GeoAnalytics Server, and ArcGIS Image Server

Your Road Ahead

You will receive an email in the next few weeks that will include a link to resources from the ArcGIS User Seminar and more!
