Welcome to the 2015 Esri User Conference (Esri UC) User Software Applications Fair! We invite you to participate in this year's fair. The User Software Applications Fair is an exciting forum for sharing your work with colleagues in the GIS industry. If your entry meets the guidelines of the fair and is accepted, you will have the opportunity to demonstrate it at the Esri UC and have it judged by your colleagues. Winners will be recognized by Jack Dangermond during the Closing Session.

Your completed software application and accompanying documentation must be received no later than June 30, 2015. Please note that the User Software Applications Fair is open only to individuals with noncommercial applications. If you have a software application that is marketed commercially, you are invited to participate in the Exhibit Pavilion.

If you have any questions, please e-mail appsfair@esri.com.

See you in San Diego!

User Software Applications Fair Coordinator
